17 April 1959

MEMORANDUM FOR: Mr. Houston

SUBJECT: Congressional Visitors to CIA Building Site

[redacted] in the Office of Security discussed with me appropriate measures in the event a congressman or other congressional staff members wished to visit the CIA building site. It was agreed that where we had a specific request this office would consider the matter and discuss it with [redacted] who apparently is the site security officer or, in his absence, [redacted]. In the event such a visitor presents himself to the guard on duty requesting admittance, the guard who is an employee of the contractor for the purpose would be instructed to simply contact the Security Office [redacted] who, in turn, would contact this office. If there is sufficient time, the Security Office and this office would make the necessary arrangements including what is the normal procedure for authorized visitors of escorting them around the site in a jeep. Since it is possible that if this event occurs it would be after hours or on weekends, [redacted] office has been furnished the home telephone numbers of Mr. Houston, [redacted] and Mr. Warner.

[redacted] JOHN S. WARNER
Legislative Counsel

20 April 1959

Talked further with [redacted] and suggested that the guard be furnished with a positive story to the effect that based on safety considerations in view of the excavation and rough ground, appropriate arrangements need to be made for a tour of the site.
